

Advantages **RUNPOZ**

CABLE PULLING GRIP

RUNPO Z - Cable pulling grip with coupling joint	Ø		RUNPOTEC item-no.	RRP/excl.of VAT
Available in the following sizes	4-6 mm		20272	24,00 €
	6-9 mm		20273	26,50 €
	9-15 mm	Multi-size	20274	30,50 €

► Quick connection, put it on and pull it in!

The ergonomically-shaped hook enables attachment in seconds
No time-consuming screwing on and off necessary

► Coupling joint

The patented **RUNPOZ** (cable pulling grip) has an integrated coupling joint which compensates for cable twist in the pipe and therefore provides considerable protection for the insertion system, the pulling grip and the cable.

► 200 Kg total pulling load

The total pulling load is tested at the hooks, the connection pressings, the coupling joint and the stainless steel pulling grip weave.

► Stainless steel

The hooks, the connections and the pulling grip weave are made of high quality stainless steel. Therefore no rusting and long **RUNPOZ** (cable pulling grip) service life.

► Two in one, **RUNPOZ** for Ø 9-15 mm

The flexible stainless steel double weave enables cable pulling of between 9 and 15 mm diameter.
The **RUNPOZ** (cable pulling grip) does the work of two normal pulling grips.
